April 2, 2025

Introduction of EluPro at Heart Rhythm 2025 in San Diego, April 25-27, 2025

SILVER SPRING, Md., April 02, 2025 (GLOBE NEWSWIRE) -- Elutia Inc. (Nasdaq: ELUT) ("Elutia" or the "Company"), a pioneer in drug-eluting biomatrix products, is proud to announce the debut of its EluPro™ Antibiotic-Eluting BioEnvelope designed for cardiac implantable electronic devices (CIEDs) and neurostimulators at the Heart Rhythm Society's annual meeting (HRS 2025). Attendees will have the opportunity to experience firsthand the soft, conforming feel of EluPro and discover how its natural biomatrix supports healing while delivering trusted antibiotics to reduce bacterial colonization.

Engineered for both performance and handling, EluPro features a proprietary biomatrix that drapes naturally around CIEDs, avoiding the rough, stiff feel often associated with synthetic alternatives. Combined with a trusted dual-antibiotic combination, EluPro offers physicians a solution designed for both efficacy and ease of use without compromise.

"We are thrilled to introduce EluPro at HRS 2025 and give clinicians the opportunity to feel the difference biology makes," said Dr. Kimberly Mulligan, GM and VP of Elutia's Cardiovascular Division. "With its soft, conforming biomatrix and proven antibiotics, EluPro represents a meaningful step forward in CIED antibiotic envelope technology."

Elutia invites physicians and medical professionals to experience EluPro firsthand at booth #2418 at the San Diego Convention Center from April 25-27, 2025. Attendees interested in scheduling a meeting with Elutia during the conference may register through the HRS 2025 meeting portal [here](#) or contact ir@elutia.com.
